Peterson slide for DKIM infrastructure 3:15 panel
My Answers

1. What: Email Security Appliance
2. How DKIM?: DK sign
3. 2006: Validate DK. Support DKIM (assumes IETF progress, adoption)

Your Questions

1. Is SMTP Inadequate? (Only one answer)
2. Will DKIM Work? (If “no”, go home)
3. Do you have a DKIM solution? (This is a good place to get one)
4. Will you deploy by Q2 2006? (No? Please…)
5. Who’s deployed?
